

The 2nd international symposium on Advancing stimulation precision medicine of brain disorders

29th November 2019, 8.00 AM – 5.30 PM

Auditorium 3&4, Hvidovre Hospital
Kettegård Allé 30, 2650 Hvidovre, Denmark

Organizer: Hartwig R. Siebner

Full Professor with special focus on Precision Medicine

Faculty of Health and Medical Sciences, University of Copenhagen

The five-year professorship is sponsored by Lundbeckfonden

Brain diseases are the core health challenge of the 21st century. Most, if not all, brain diseases are "circuit" or "network" disorders in which a failure of specific brain circuits determines the expression and evolution of functional impairments in individual patients. Even though patients may share the same diagnosis, the underlying causal circuit alterations may differ substantially from patient to patient. This calls for brain-circuit based precision medicine of brain diseases. Brain stimulation technologies are rapidly advancing and can specifically target dysfunctional brain circuits in individual patients. This workshop brings together a distinguished panel of international experts to discuss the potential of stimulation-based precision therapies of brain disorders.

Program

8.00-8.10 AM Registration and coffee

8.10-8.15 AM - Welcome notice. Jakob Hendel, Deputy director, Amager Hvidovre Hospital

8.15-8.20 AM - Welcome notice. Jan Egebjerg, Senior Vice President, Director of Science, Lundbeckfonden

8.20-8.45 AM - Introduction - Towards circuit-based precision brain therapies. H.R. Siebner

Advances in targeting brain circuits with brain stimulation

Chairs: A. Thielscher & A. Karabanov

8.45-9.15 AM - Computational dosimetry - from an engineering tool to an integral part of NTBS research. A. Thielscher

9.15-9.45 AM – Rational Design of Precision Seizure Therapy. Z.D. Deng

9.45-10.15 AM - Deep Brain Stimulation: A connectomic approach. A. Horn

Coffee break (30 minutes)

10.45-11.15 AM - A distributional code for value in dopamine-based reinforcement learning.

Z. Kurth-Nelson

11.15 AM -11.45 AM - The new kid on the block: Transcranial precision stimulation with focused ultrasound. L. Verhagen

11.45 AM-12.15 PM - Precision treatment of hearing impairment. J. Hjortkjær

Lunch break (12.15 PM – 1.00 PM)

Targeting network dynamics with TMS-EEG & EEG-TMS

Chairs: H.R. Siebner & M. Rosanova

1.00-1.30 PM - TMS-evoked cortical potentials: the importance of peripheral co-stimulation.

L. Tomasevic

1.30-2.00 PM - TMS-evoked cortical potentials: the importance of personalization. M. Rosanova

2.00 -2.30 PM - Precision brain stimulation in time: zooming in on oscillations. T.O. Bergmann

2.30-3.00 PM - Targeting the precentral mu-rhythm with EEG-informed TMS - the Copenhagen experience. A. Karabanov

Coffee break (30 minutes)

Clinical perspectives of circuit-based transcranial brain stimulation (NTBS)

Chairs: C. Kruuse & D. Herz

3.30-4.00 PM - NTBS-induced sensorimotor plasticity: mechanisms, individual differences, and neglect rehabilitation. J. O'Shea

4.00-4.30 PM - NTBS to study cognition and plasticity - insights from combined NTBS and neuroimaging in the language network. G. Hartwigsen

4.30-5.00 PM – NTBS as circuit therapy in Parkinson’s disease. H.R. Siebner

5.00-5.05 PM - Concluding remarks and farewell. H.R. Siebner

Faculty members

Bergmann, Til-Ole, Research group leader - Neurostimulation (Til-Ole.Bergmann@drz-mainz.de)
German Resilience Centre, Mainz, Germany

Deng, Zhi-De, Director (zhi-de.deng@nih.gov)
Noninvasive Neuromodulation Unit, Experimental Therapeutics & Pathophysiology Branch, National Institutes of Mental Health, NIH, Bethesda, Maryland, USA

Hartwigsen, Gesa, Privatdozent, Research group leader (hartwigsen@cbs.mpg.de)
Lise-Meitner-Research group "Cognition and Plasticity, Max Planck Institute for Human Cognitive and Brain Sciences, Leipzig, Germany

Herz, Damian Marc Brønnum, PhD (damian.marc.broennum.herz.01@regionh.dk)
Dept. of Clinical Neurophysiology, Copenhagen University Hospital Rigshospitalet, Copenhagen, Denmark

Hjortkær, Jens, Senior Researcher (jhjort@dtu.dk)
Department of Health Technology, Technical University of Denmark. Kgs. Lyngby, Denmark

Horn, Andreas, Privatdozent (andreas.horn@charite.de)
Dept. for Neurology with Experimental Neurology, Universitätsmedizin Charité, Berlin, Germany

Karabanov, Anke, Associate Professor in Human Neurophysiology (anke@nexs.ku.dk)
Department of Nutrition, Exercise and Sport, University of Copenhagen

Kruuse, Christina, Consultant, Professor (christina.kruuse@regionh.dk)
1. Department of Neurology, Copenhagen University Hospital Herlev, Herlev; 2. Faculty of Health and Medical Sciences, Institute of Clinical Medicine, University of Copenhagen, Copenhagen, Denmark

O'Shea, Jacinta, Wellcome/Royal Society Sir Henry Dale Fellow (jacinta.oshea@ndcn.ox.ac.uk)
1. Cognition, Action & Neurotherapeutics Lab, Oxford Centre for Human Brain Activity (OHBA); 2. Wellcome Centre for Integrative Neuroimaging & Department of Psychiatry, University of Oxford, UK

Rosanova, Mario, Associate Professor (mario.rosanova@gmail.com)
Dept. of biomedical Science and "L. Sacco" Hospital, University of Milan, Italy

Siebner, Hartwig Roman, Director, Professor (h.siebner@drcmr.dk)
1. DRCMR, Copenhagen University Hospital Hvidovre, Hvidovre, Denmark; 2. Faculty of Health and Medical Sciences, Institute of Clinical Medicine, University of Copenhagen, Copenhagen, Denmark; 3. Department of Neurology, Copenhagen University Hospital Bispebjerg, Copenhagen, Denmark

Thielscher, Axel, Associate Professor (axelt@drcmr.dk)
1. DRCMR, Copenhagen University Hospital Hvidovre, Hvidovre, Denmark; 2. Department of Electrical Engineering, Technical University of Denmark, Kgs. Lyngby, Denmark

Tomasevic, Leo, Senior researcher (leot@drcmr.dk)
DRCMR, Copenhagen University Hospital Hvidovre, Hvidovre, Denmark

Verhagen, Lennart, Assistant professor (lennart.verhagen@donders.ru.nl)
Donders Institute for Brain, Cognition, and Behaviour, Radboud University, Nijmegen, The Netherlands

Zeb Kurth-Nelson, Honorary Fellow (zebkurthnelson@gmail.com)
Max Planck UCL, Centre for Computational Psychiatry and Ageing Research, UK

Registration

Registration is required. Participation is free but we will charge a no-show fee of 400 DKK.

Please send an e-mail to Susanne Steffensen (Susanne.Steffensen@regionh.dk).

Venue

Auditorium 3 & 4, Ground level (Level of outpatient clinics),
Hvidovre Hospital, Kettegård Allé 30, 2650 Hvidovre, Denmark

For public transportation please check www.rejseplanen.dk

For more details on how to find auditorium 3 & 4, please check <http://www.drcmr.dk/about/contact-find-us>
